

WISER WATTS

Portable Solar Light Tower

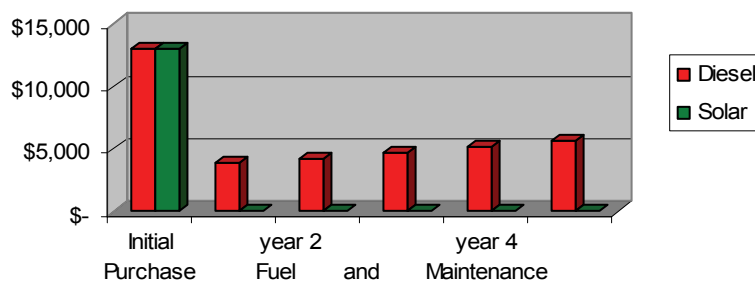

Wiser Watts Portable Work Light Systems

Powerful light where you need it, when you need it, without the earful of a noisy generator. No Gas, No noise, No Burned out light bulbs; with Wiser Watts Portable Work Light Systems all you get is reliable, silent, high quality Light! Utilizing high quality Solar Modules, Solid State LED lighting and maintenance free DOT approved batteries our Portable Solar Light Towers are built to perform. Add a Honda whisper generator for back-up power and utilize for tool operation. All on one compact unit. Extend your run time with dimmer switches when you don't need as much light. With built in booster cables, a portable air compressor, and 2 accessory outlets standard these units really have it all!

Solid State LED Technology

Top Quality LED Spotlights with fully adjustable tower. Extremely durable, aluminum framework and shatter resistant lens, these lights provide a tremendous amount of light using very little power. High reliability lighting decreases maintenance and costly down-time.

Cost Comparison Diesel Vs. Solar

Fuel and maintenance figures based on operation 5 days a week, 12 hours a night.

Features & Benefits

- No Fuel
- No Utility Power
- No Maintenance
- Silent Operation
- Reliable LED Lights
- Renewable Energy
- Power Inverter Option
- Made in U.S.A.
